# Armanda

ARMANDA is a multifunction, rechargeable LED illuminator made of painted aluminium. Available in three colors. The swivel head, with polycarbonate diffuser, allows you to adjust the angle and direction of the light to your specific needs. The touch dimming function allows the user to decrease or increase the brightness. Thanks to its magnetic attachment, it can be used with various accessories as a garden lamp with spike of various heights, or as a wall lamp, or even hung from a structure or a tree branch.
